TRASHURE

Automated Recyclable Waste Verification with Point Allocation and Reward System

Welcome to TRASHURE!

We are thrilled to have you join our mission to build a **cleaner, safer, and healthier** community.

At its core, **TRASHURE** is more than just a recycling system—it is a **community-driven movement**. We believe that what we throw away still holds immense value. This system was built to help you easily transform your everyday recyclable waste—like empty **cans, old papers, plastic bottles**, and glass **bottles**—into valuable rewards you can **earn and enjoy**.

This user manual is your simple, step-by-step guide to using the TRASHURE system. Whether you are dropping off your very first batch of recyclables, tracking your progress, or claiming your hard-earned rewards, we are here to make the process smooth and hassle-free.

Thank you for doing your part. Together, let's turn our trash into treasure and protect the environment for future generations!

(Ikinalulugod naming makasama ka sa aming misyon na magkaroon ng mas malinis, mas ligtas, at mas malusog na komunidad.)

Higit pa sa isang simpleng sistema ng pagre-recycle, ang TRASHURE ay isang kilusan na para sa ating lahat. Naniniwala kami na ang mga bagay na ating itinatapon ay may malaking halaga pa rin. Ang sistemang ito ay ginawa upang tulungan kang madaling palitan ang iyong mga pang-araw-araw na kalat—tulad ng mga lata, lumang papel, at mga bote na gawa sa plastic o salamin—upang maging mga pabuya o "treasure" na maaari mong kitain.

Ang user manual na ito ay ang iyong simpleng gabay sa paggamit ng TRASHURE system. Naghihiwalay ka man ng iyong unang sako ng mga bote, sinusubaybayan ang iyong nalipon, o kumukuha ng iyong pinaghirapang pabuya, nandito kami para gawing mabilis at madali ang buong proseso para sa iyo.

Salamat sa iyong pakikilisa. Sama-sama nating gawing yaman ang ating basura at protektahan ang ating kalikasan para sa mga susunod na henerasyon!

TRASHURE Machine Guidelines

Welcome to **Trashure**! Turn your everyday trash into **rewards**. This kiosk uses sensors to check your recyclables and convert them into points. To ensure your items are scanned correctly and the machine runs smoothly, **simply follow these easy steps:** (Maligayang pagdating sa Trashure! Gawing rewards ang iyong pang-araw-araw na basura. Gumagamit ang kiosk na ito ng mga sensor para suriin ang iyong mga recyclable at palitan ito ng points. Upang masiguradong ma-scan nang tama ang iyong mga gamit at gumana nang maayos ang makina, sundin lamang ang mga simpleng hakbang na ito.)

EMPTY AND CLEAN:

Make sure bottles and cans have no leftover liquids. **Wet items** may not be read by the sensors properly.

(Walang Laman at Malinis: Siguraduhing walang natirang liquid sa mga bote at lata. Maaaring hindi mabasa nang maayos ng mga sensor ang mga basang bagay.)

SORT PROPERLY: Only put paper in the paper slot, bottles in the bottle slot, and cans in the can slot. (Ihiwalay Nang Maayos: Ilagay lamang ang papel sa butas para sa papel, mga bote sa butas para sa bote, at mga lata sa butas para sa lata.)

WAIT FOR VERIFICATION: Insert items slowly. Wait for the system to scan and verify each item before dropping the next one.

(Maghintay sa Verification: Dahan-dahang ipasok ang mga gamit. Hintaying ma-scan at ma-verify ng system ang bawat item bago ihulog ang susunod.)

CLAIM YOUR REWARD: Ensure all items are accepted by the system to successfully receive your points.

(Kunin ang Iyong Reward: Siguraduhing tinanggap ng system ang lahat ng iyong inilagay para matagumpay mong makuha ang iyong points.)

WARNING: Inserting unaccepted trash, pushing items forcefully, or pouring liquids will cause the machine to break down.

(BABALA: Ang pagpasok ng mga hindi tinatanggap na basura, sapilitang pagtulak ng mga gamit, o pagbuhos ng liquid ay magiging sanhi ng pagkasira ng makina.)
